Linkedin | HackerRank | LeetCode | GitHub

EDUCATION

Anurag University

AIML B.tech

CGPA: 7.9

Ghatkesar, Hyderabad

2023 - Present

EXPERIENCE

SIP Abacus | Abacus Instructor (Part-Time)

Hyderabad, India | June 2022 - Present

- Conducted abacus training sessions for children aged 5 to 14 to develop mental arithmetic skills.
- Designed fun, interactive lessons to improve concentration and cognitive development.
- Helped students prepare for and participate in local abacus competitions.

Codsoft | Machine Learning Intern

(Remote) | May 2025 - June 2025

- Completed a 4-week internship applying ML to real-world problems using Python and Scikit-learn.
- Credit Card Fraud Detection: Improved fraud detection accuracy by applying SMOTE on imbalanced datasets and training ensemble models.
- SMS Spam Classification: Built a 95%+ accurate spam filter using NLP techniques and logistic regression.

SKILLS

Programming Languages: Python, Java
Libraries/Frameworks: NumPy, Pandas, OpenCV, Scilearn
Tools / Platforms: Git, GitHub, VS Code
Databases: SQL, MongoDB

PROJECTS / OPEN-SOURCE

AI Tic Tac Toe | Link

Python

Python, Minimax Algorithm

Developed a Tic Tac Toe game with an AI opponent using the Minimax algorithm, ensuring unbeatable gameplay by enabling optimal move selection through game tree evaluation.

Sign Language Translator | Link

Python, HTML

Python, OpenCV, TensorFlow

Built a real-time sign language interpreter using a CNN trained on the Sign Language MNIST dataset, integrated with OpenCV for webcam input to recognize hand gestures and display corresponding alphabets.

CERTIFICATIONS

- Java Programming - Great Learning
- Python - Udemy
- SQL(basic) - HackerRank

HONORS & AWARDS

- Finalist, College Tech Expo 2024 . Presented a Sign Language Converter project using CNN; recognized for innovation and practical application.
- 2nd Runner-Up, SIP Abacus National Competition (Final Level), 2018 Achieved top rank in a nationwide mental arithmetic competition.
